

Leading Manufacturer Bacterial Toxin Products

HIGH QUALITY

HIGH PURITY

LOT CONSISTENCY

NATIVE & RECOMBINANT

Harnessing Bacteria's Potential for a Healthier World

Our Top Products

Pertussis Toxin

- Vaccine Development
- Immune Stimulation
- EAE Model of MS
- Study of Signal Transduction

Diphtheria Toxin

- Vaccine Development
- Vaccine Carrier
- Immunological Research
- Study of Apoptosis

Tetanus Toxin

- Vaccine Development
- Vaccine Carrier
- Trace Neuromuscular Junctions

Cholera Toxin

- Vaccine Development
- Vaccine Adjuvant
- Trace Neuromuscular Junctions
- Study of Signal Transduction

Lipopolysaccharide (Endotoxin)

- Immune Stimulation
- Activation and Differentiation
- Bacterial Pathogenesis Research
- Challenge Material in Clinical Trials

Research and Development Applications:

VACCINES | IMMUNOLOGY | DRUG DISCOVERY | MICROBIOME | CELL AND GENE THERAPY
THERAPEUTICS | SIGNAL TRANSDUCTION NEUROMUSCULAR MAPPING | TOXIN ACTIVITY AND DETECTION
